KT810

EVSE ADAPTOR

Features

- Input voltage: max. 250 V (single phase), max. 430V (three phase) 50/60Hz
- Measurement category: CAT II 300V Mains outlet power: 250V/10A Mains outlet protection: 10A/250V fuse
- PP simulation: open circuit, 13A, 20A, 32A, 63A
- CP simulation: States A, B, C, D
- Error simulation: CP "E" error, PE error (earth fault)
- PE pre-test: Yes
- Type of test connector: IEC62196-2 Type 2 male
- Test cable length: 25 cm
